

WE ARE HIRING: ELECTRICAL POWER SYSTEMS ENGINEERS

Work directly on systems that others only study: At Newtility, engineers have the opportunity to develop focused expertise in project design, protection & control, automation, or field service while working alongside a team that does it all!

Curious? Let's talk:

info@newtility.com
+1.207.558.9001

WHAT YOU WILL DO:

- Work alongside experienced engineers on some of the most interesting renewable energy, power generation, and industrial power systems projects in the industry
- Design electrical protection and control systems
- Support protective relaying, system modeling, power studies, engineering analysis, and project-level design
- Support control panel design and factory testing
- Collaborate with project teams, interfacing directly with clients, contractors, and vendors

WHO WE ARE LOOKING FOR:

- 0 to 10+ years of experience in electrical engineering
- Passion for learning, thinking independently, and diving into technical challenges
- Interest in gaining both office and field experience
- **We are looking for good people who want to grow and become industry experts, not another "Engineer II"**
- If this describes you...let's get in touch!

ABOUT NEWTILITY:

At Newtility, we engineer, build, and commission complex power and control systems for renewable energy projects, microgrids, and utility infrastructure. We design projects, perform power system studies, develop control logic, and fabricate custom control panels...and get our hands dirty in the field bringing these systems to life. We are the engineers others look to when a project is difficult, unusual, or mission critical.

WHY CHOOSE US:

- **Our challenge isn't finding work...it's finding engineers!**
- Competitive salary, benefits, and 401k
- Hybrid work flexibility with a hands-on, high-trust, and fun team of experienced professionals
- Whether your passion is project design, protection & controls, power system studies, field commissioning, or somewhere in between, Newtility will help you build a career around your strengths and interests

84 Maine Street
Brunswick, ME
